AUTO DRIVING WITH LIGHT, AIRY FLOWERS

George Sanborn, accountant and treasurer of the Ripley & Fletcher Co., automobile dealers, of South Paris, has a good story told of him and his adventure with an auto and some flowers.

It goes something like this:

He, "Pod," as familiarly known had some flowers given him to take home to his wife as a present, by a friend. On the way to Norway the beautiful posies began to blow away and he grabbed to save them.

The car resented the inattention and took to a roadside gutter and a nearby telephone pole. When it quieted down he was minus a mudguard and had lost most of the flowers.

If the story is incorrect, we will cheerfully corerct it in a later edition.

NORWAY GRANGE.

The meeting for July 24 was cancelled and the next regular session will be August 14, at 7 o'clock. The men are asked to answer the roll call with a short story and the ladies with a short poem or rhyme.

The New England Lecturers' Conference will be held at Orono. Aug. 16 17, 18. All grange members are invited. The program, which is very interesting, will come to a close on Wednesday evening with a concert by Miller's Orchestra, with a social hour and dance. On Thursday all who desire will start on a three day trip through Aroostook County.

An elastic wire fence has been placed between the residence of E. N. Swett and the Legion Home. This is a protection for motorists who might go over the bank while on high speed around Paris street corner.

Rupert Aldrich, who had his leg amputated at the hip some weeks ago, is able to enjoy auto rides and shows marked improvement in health. He expects to have work at the snowshoe factory when he is a little stronger.

Mrs. Etta Dow of Portland arrived Sunday to visit her brother and wife, Mr. and Mrs. Wilfred G. Conary.

Cups won at the Augusta field day by the Norway-Paris Kiwanis Club are on exhibition at the Norway Buick Co.

The picnic at Gulf Island on July 11th was enjoyed by the following employees of the Central Maine Power Company: Supt. O. M. Palmer, Mrs. Palmer and son, Harry; A. L. Harriman, Ellis Perry, Mr. and Mrs. Edward McKay, Mr. and Mrs. Thos. Kierstead, Mr. and Mrs. M. E. Prince and daughter, Marie, and son, Thomas, and C. J. Moore. Members of the line crew were unable to attend as construction on the new State road between South and West Paris necessitated their working both Sundays scheduled for the picnics.

Robert N. Millett and family of Springfield, Vt., are guests of his sisters, Mercy Millett and Mrs. Harriot Porter, Water Street.

Miss Thurley Tucker goes to Ferry Beach the last of the week, to attend the Y. P. C. U. meeting held there. Miss Marguerite Pearman will be present for the meetings and has a part in the classes.

SANBORN CAUGHT FISHING IN CLOSED WATER IN THE MAGALLOWAY DISTRICT, ARRESTED AND SETTLED

A news item for this week from our Wilson's Mills correspondent should read as follows:

"Fred W. Sanborn, owner of the Norway (Me.) Advertiser, was arrested by Game Warden Dallas Benson for fishing in closed water—Twin Brooks—and brough before trial Justice, Herbert W. Fickett, last Monday. He pleaded guilty and was fined $10.00 and costs of $7.50, total $17.50. Payment of fine suspended. Costs paid."

The above is a plain statement of facts that actually occurred.

The reason for the suspended payment of fine as explained by Justice Fickett was that the offence committed was nominally technical; that it was clearly shown that no intent to violate the laws was in mind of the respondent, he was misinformed as to the closing time on the brook, therefore he felt warranted in suspending payment of the fine imposed and that payment of costs was a sufficient punishment for neglecting to look up the law as laid down in the book of Rules and Regulations issued by the State Fish and Game Department.

The writer admits all of the above and cheerfully paid the costs and complimented the efficiency of the warden service of that section.

CASCO

Former Casco Man Dead

Taken from the Hartford Courant: "Dr. F. H. Mayberry, who was born and lived in Casco the first years of his life and who has been a prominent East Hartford physician for many years, was critically hurt by a trolley car, July 20. Dr. Mayberry was about to make a professional call at the home of F. O. Newberry, in East Windsor, when the accident occurred. According to witnesses, he drove his automobile to a point opposite a driveway leading into the house. He then alighted, it was said, and without looking either to the right or the left, started to cross the trolley tracks, which lie on the east side of the road. His automobile was left standing close to the car tracks, but allowing clearance for the passage of the trolley car. The trolley car struck Dr. Mayberry as he stepped over the track and hurled him a distance of almost 60 ft., witnesses said. He was taken to the Hartford hospital in a private ambulance of Whitney, Champion & Woodbury. He passed away Wednesday morning. The trolley car was in charge of motorman W. J. Perley and conductor John G. Hayes, both of Hartford. Supt. of Transportation, John A. Kiley, of the Connecticut Company, said that the motorman of the trolley car had also asserted that the physician apparently had failed to look about before crossing the tracks. First aid treatment was given by Dr. E. E. Everett of Boston, who was driving by in his automobile and Dr. Mayberry was then taken into a nearby dwelling to await the arrival of the ambulance. One night last winter, while attempting to avoid a pedestrian in the road, Dr. Mayberry drove upon the railroad tracks at the School Street crossing of the Springfield branch in East Hartford and was struck by a train. The automobile was flung to the side of the tracks, almost a complete wreck, and Dr. Mayberry was badly bruised and shaken. Dr. Mayberry, with a wide practice in East Hartford and vicinity, and well known in his profession, has also for many years been prominent in Republican politics in East Hartford. His first political office was that of representative from East Hartford in 1905 and this office he again filled in 1909 and 1923. In 1905 Dr. Mayberry was elected State Senator from the 4th district. He has also been chairman of the East Hartford republican town committee and president of the school committee. In 1909 at a spirited town meeting, Dr. Mayberry was elected commissioner of the Connecticut River Bridge and Highway District from East Hartford and continued to serve in that capacity until 1923. In March of this year, following th decath of former state senator, Howard E. Bidwell, he was again appointed commissioner of the Connecticut Bridge and Highway District, to fill the unexpired term.

The services were held in the M. E. Church Thursday afternoon, July 29. Rev. Cymbrid Hughes of Woodfords officiating. The flowers were many and beautiful. She was a member of the Library Association, Eastern Star and the Circle. Two pieces were sung by Mrs. E. E. Elliott and W. T. Norton, "Sometime We'll Understand" and "We Shall Meet." Germicides to Lengthen Human Life

The scientist, with his microscope and filters, has done marvelous work in identifying and classifying the germs of disease. He has revealed a new world—the realm of microscopic vegetable growths which cause most of the malignant diseases.

Pneumonia, influenza, tuberculosis and most of the other diseases which have wrought havoc through history are now accounted for. We know how they develop. We have made great strides in dealing with their germ-causes.

Thus much of the mystery of human ills has been cleared away. We have learned that when we destroy the germs and neutralize the germ-poisons, infection quickly yields to Nature's curative processes.

Germicides thus have become vitally important weapons in the attack on disease. Particularly germicides of non-poisonous character, which can be introduced into the tissues and organs, to destroy colonies of disease germs where they are at work.

One germicide which meets this requirement is

A LETTER HOME FROM A MAINE CAMP

"Denmark, Me., July 26, 1926. Dear Mother—The eats in Maine are great! They agree with me too, for I've gained two pounds in the last week. Of course you want to know what this marvelous grub is. I'll give you a few samples. You ought to see the great big blueberry pie, the best thing you ever flung your lip over.

But blueberries don't hold full sway in the berry line. I'll bet you never ate anything as good as Maine's red raspberries. When you tuck those into you Heaven seems very near.

Another Maine delicacy is swordfish. Believe me, its a glad day for our palates when the fish man comes. Mother, its the most scrumptious fish you ever tasted, the only one of its kind. How our eyes stick out when we come to the table that is groaning under the weight of the savory dishes prepared by a generous Maine housewife. Such an abundance of vegetables, puddings, custards jellies, pies and cakes. And oh Mother, we have doughnuts for breakfast. Can you beat that for a luxury? Maine is a dandy place in every way. Not the least of her attractions are her eats. Yum! Yum! Lots of love from your ardent little Maine rooter, Kid."

A LETTER HOME FROM A MAINE CAMP

"Denmark, Me., July 26, 1926. Dear Mother—The eats in Maine are great! They agree with me too, for I've gained two pounds in the last week. Of course you want to know what this marvelous grub is. I'll give you a few samples. You ought to see the great big blueberry pie, the best thing you ever flung your lip over.

But blueberries don't hold full sway in the berry line. I'll bet you never ate anything as good as Maine's red raspberries. When you tuck those into you Heaven seems very near.

Another Maine delicacy is swordfish. Believe me, its a glad day for our palates when the fish man comes. Mother, its the most scrumptious fish you ever tasted, the only one of its kind. How our eyes stick out when we come to the table that is groaning under the weight of the savory dishes prepared by a generous Maine housewife. Such an abundance of vegetables, puddings, custards jellies, pies and cakes. And oh Mother, we have doughnuts for breakfast. Can you beat that for a luxury? Maine is a dandy place in every way. Not the least of her attractions are her eats. Yum! Yum! Lots of love from your ardent little Maine rooter, Kid."

Heads Newton Theological Institution

Everett Carleton Herrick, D. D., who graduated from Hebron Academy in 1894 has accepted election to the presidency of Newton Theological Institution, Newton, Mass., the principal institution of the Baptist denomination in the New England States. Dr. Herrick was born in Livermore, the son of Rev. and Mrs. Joel R. Herrick, his father being one of Maine's well known Baptist clergymen. Following his course at Hebron Academy, he attended Colby College and Newton Theological Institution, graduating from the former in 1898 and the latter in 1901. He later took graduate studies in Harvard Divinity School. Colby College conferred the degree of Doctor of Divinity upon him in 1919.

His first pastorate was in the Charlestown district of Boston, to which he was called almost a year before his graduation at Newton. The notable achievement of his fourteen years in Charlestown was his work in bringing about the union of the Bunker Hill church with the First Church and laying the foundation for the present prosperous condition of the united church.

Accepting a call to the First Baptist Church in Fall River, Mass., in 1914, Dr. Herrick entered upon a notable pastorate. Under his leadership the membership doubled, having now reached 1900 members. The church school was reorganized and reached an enrollment of 2600 and a parish house costing $85,000 and adapted to multiple parish activities was erected. Chief among his successes from a public viewpoint has been the building up of the men's class, one of the country's foremost, which now numbers 1,000 and includes many prominent business men of Fall River. During his pastorate, a trust fund of $70,000 has also been established for the church and a new organ, as well as windows donated by parishioners have been installed.

Dr. Herrick served as president of the Massachusetts Baptist Convention in 1924 and 1925.

He married Miss Sarah Munroe Hall of Rockland, Me., a graduate of Colby College, known as an evangelistic singer. She was in charge of the music at evangelistic meetings conducted by Herbert L. Gale in Hebron, almost 30 years ago. Her husband has found her an able helpmeet in his many undertakings. Mrs. Herrick is prominent in home mission work, having been president of the New England district of Woman's Baptist Home Mission Society of the New England district and continuing as member of the board. She is also a member of the Executive Committee and Board of Missionary Cooperation of the Northern Baptists Convention, has a Philathea class of 400, and is in other church service.

THERE IS NO SATURATION POINT FOR HONEST VALUE

Build a product that the world needs, better than the world expects, and mounting sales will answer those who are constantly predicting a saturated market.

During the first six months of this year, for instance, Dodge Brothers sold 207,115 motor cars and trucks. This represents a gain of 49.3 per cent over the first six months of 1925, and continues Dodge Brothers in the enviable position of THIRD IN THE INDUSTRY.

For the three weeks ending July 17th, 23,862 motor cars and trucks were delivered to customers—an increase of 62.4 per cent over the same period last year, and impressive evidence that Dodge Brothers great sales gain is continuing through the quiet weeks of mid-summer.

There may be a saturation point for mediocrity, but honest value will always command a great and ever expanding market.

NORWAY VICINITY

CAPT. WM. W. DURGIN VISITS HERE

Capt. Wm. W. Durgin of North Lovell was here and at South Paris, recently, calling upon close friends. Captain Durgin is smart and active and holds his health and mental faculties. He will be 87 on the 18th of December and it is not too much to say that he has no equal in all western Maine. He was the first man to enlist from Stoneham in the Civil War, going out first in Capt. George L. Beal's Norway company of the First Regt., that went from this state. On the expiration of his term of service, he re-enlisted in the Ninth Maine. Captain Durgin, during the last of the conflict, had charge of a squad of men who did guard duty at the White House. His soldierly qualities were noted by President Lincoln, who, whenever he went out on the streets, saluted him. He knew the members of the family of the President. Tad, the youngest son, was the greatest favorite in the city. He died soon after the war. Robert T., who has just died, in his 83rd year, was on Gen. Grant's staff.

It was a great honor for Capt. Durgin to be selected as one of the bearers of President Lincoln's remains from Washington to Springfield, Illinois.

The Captain is now engaged in writing up the history of Stoneham. The narrative is full of adventures with bears and other wild animals. We all hope he will live to see his one hundredth birthday.

MUTT AND JEFF

Mutt and Jeff, those two frolicsome and always popular comics, are returning to their own again. At any rate they are understood to hold forth at Norway Opera House, Saturday evening, August 7. This will mark their first appearance in the flesh hereabouts and the event as a consequence is of more than passing importance. Mutt and Jeff are so well known that any further reference as to their fame or standing in the community as simon-pure exponents of genuine jollity and fun would be superfluous.

Incidents and Impressions of My Recent Trip to the Sesqui Centennial

By Clayton F. White

Dear Editor: as you requested that I write a short article upon some of the incidents and impressions of my recent visit to the Sesqui Centennial Exposition, I will endeavor to do so.

As guests of the city of Philadelphia, we, who represented the youth and teachers of the States, were impressed by the great tasks undertaken by the directors of the Exposition. Also by the work of the branch committee which made possible the American Youth and Teacher Award.

No more fitting site than Philadelphia could have been selected for this Exposition. This city can justly be called the center of the nation's celebrations. There was the setting of the opening chapters of struggle and now more of the chapters of accomplishment. There was the country first conceived and first declared in existence. Philadelphia was the first capitol of the United States. In 1876 the centennial Exposition was held there and the grounds have now been made a part of the city park. Visitors to the Sesqui should not miss traveling through

CLAYTON F. WHITE

these grounds, where the first great Philadelphia Exposition was held.

The Sesqui Centennial International Exposition should be and will be a visualization of the spiritual, scientific, economic, artistic and industrial progress that has been made in the world since 1876. Although the directors are not striving to make this outdo all former expositions, yet it no doubt will by a large margin.

The grounds are on the southern end of Broad Street, a magnificent street of twenty-seven miles in length. They include over one thousand acres, directly under control of the Sesqui Officials and a large tract of the Philadelphia Navy yard, which is open to the public.

A gigantic reproduction of the Liberty Bell, suspended above the street marks the entrance to the grounds. At night this bell is lighted by some 26,000 lights. This is one of the great lighting features of the Sesqui.

Upon entering through the main gate one of the major structures becomes conspicuous. This is the immense Stadium with a seating capacity of 100,000. In this stadium there have been enacted some of the most impressive and stirring acts of the Sesqui schedule. We were privileged to attend the Fourth of July exercises which were held there. On the evening of July 3, at the dedication of the structure, the pageant "Freedom" was presented. On July 5, President Coolidge was present and delivered his Sesqui address.

It is fitting that the leading foreign nations of the world should join with us in this exposition and they have. Nearly forty special buildings have been erected by foreign countries and each have sent fine exhibits.

A number of palaces have been erected and in the artistic structure may be seen the architectural advance of the present. The central unit of the Exposition is the Palace of Liberal Arts and Manufactures, the Palace of Agriculture and the Forum of Founders, all surrounding the Tower of Light. In the evening this is the center also of the lighting scheme and the searchlight at the top of the Tower of light, the largest ever built, commemorates the inspired vision of the founders of liberty. The wonderful colored lights will gain for Philadelphia the title of "Rainbow City." While the Sesqui continues, Philadelphia will be plainly visible through the night in New York City and other places even more distant.

Outside the Exposition grounds are the many historical features of Philadelphia. First of all, Independence Hall, the birthplace of the United States. Our visit about Philadelphia, also included historic Germantown, wherein was fought one of the Revolution's most bloody battles, and Valley Forge, here in one of the most beautiful of the historic fields. The Washington Memorial Church situated on the hillside, overlooks the whole fields on which the first American soldiers camped for winters.

On Sunday, July Fourth, the services held in the Memorial Church were the most impressive which I have ever attended.

At the conclusion of this visit, I feel that a new understanding of history has come to me and that surely history must seem more real than ever before.

The annual reunion of the 12th Regimental Association will be held at "Dunscroft House," Dunston, West Scarboro, Wednesday, August 11. Shore dinner at 12 o'clock standard time, with business meeting to follow.

True's Orchestra has been engaged for the American Legion dances every Tuesday night at the Legion Home in Norway. The same team plays at South Waterford every Thursday and this Friday night at Camp Kokosing, a girls' camp at South Waterford.

Doris H. Cole, daughter of Harry V. Cole, is recovering from an operation for appendicitis performed at the Central Maine General Hospital, Lewiston, last Thursday. Miss Cole is employed at the Poland Spring House and was ill three days before she was advised by the house physician to submit to surgery. She came home and the family physician also advised her removal to the hospital.

Walter P. Cullinan and family enjoyed a three days' automobile trip into Canada, returning home late Sunday night. They traveled 880 miles.

Mr. and Mrs. Harley True passed Sunday with relatives in Portland and Falmouth Foreside.

Mr. and Mrs. Will Stone and relatives passed Sunday in Augusta.

Roy White played bass horn with True's Orchestra, Saturday night.

Harley True has purchased a new Oldsmobile six sedan from Lake & McKeen.

Marion Hill passed Sunday at Old Orchard, with friends.

Henry Knightly has bought a new Chevrolet car of Maxim Motor Mart, South Paris.

Mrs. Ella Jewett Cole has sold all her household goods, including valuable antique furniture and with her daughter, Miss Mina Jewett and Miss Frances Otte started, Wednesday, on an extended automobile tour to points in Canada and New York state. After the trip, they will locate in White Plains, N. Y., near her son, Dr. Stephen Jewett, a noted specialist in mental diseases.

George G. Lord, principal of the Norway High School, who with his family is summering at Brownville, was in town last week. He will return this week for four weeks and will coach the Norway ball team.

My Trip to Philadelphia as Recipient of the American Youth Award

By Miss Hallie A. McKeen

We left Portland, Maine, on the Bar Harbor Express at 9:40, Sunday night for Philadelphia. We arrived in Philadelphia about one o'clock P. M. Monday and took a taxi from there to Ogontz School, about fifteen miles out. Ogontz School is one of the largest private schools in Pennsylvania. It is very beautiful there.

After lunch five huge buses conveyed us to City Hall, Philadelphia, where Mayor Kendrick gave the official reception. Here a battery of cameras confronted us. Different state reporters sought out their respective delegates for individual pictures. It was our disappointment not to find a Maine reporter present. Dinner was at Ogontz School, followed by an informal dance in the log cabin.

Bright and early Tuesday morning, we boarded the buses for Pennsylvania Station, where we took a special B. & O. train for Washington, D. C. We were much excited with the prospects of seeing the Chief Executive of the United States.

HALLIE A. McKEEN

We arrived in Washington at noon and were conducted to the White House. Here Mr. Coolidge presented each of us with a solid-gold medal. After the presentation of the medals, we were allowed to explore the White House. At 1:20, we lunched at the Lee House.

After lunch, we boarded a trolley for Arlington, Va. At Arlington, we visited the National Cemetery, Arlington Amphitheatre and Tomb of Unknown Soldier. We had scarce fifteen minutes at Mount Vernon, but during this short time, we glimpsed the sacred home of George Washington. The same old furniture that Washington used is there. We went back to Washington Via the Potomac, by boat.

In the evening we visited the Congressional Library. The things here that impressed me were the original Declaration of Independence, Constitution of the United States, Lincoln's Gettysburg Address, and Second Inaugral Address, and letters written by George and Martha Washington.

Wednesday we visited the Government section of the Capital. The Bureau of Printing and Engraving is very interesting. We were allowed to view for a brief time the making of money on a large scale. Six billion dollars are turned out daily. It takes thirty days to complete one bank note and one week to finish a postage stamp. Six thousand post offices are supplied with stamps from this building.

Most beautiful of all is the Pan-American Building. Fashioned after a Spanish villa, this meeting place of the Americas, stands out from all other structures. The open courts, tropical plants and beautiful gardens add to its attractiveness. On the second floor of this building is the room where discussions of great importance are held.

We visited the Corcoran Art Gallery and were merely tantalized by not having more time to inspect the magnificent paintings and statues.

At the new National Museum we saw the animals collected by the late Roosevelt Expedition, and at the Old Museum we found things of interest, varying from the old and new styles in dress to the first automobile invented.

Our stop in the Capitol was limited. For five short minutes we sat in the House of Representatives and were allowed the same amount of time in the Senate Chamber.

In the afternoon, we went to that largest memorial erected to any man, Washington Monument. This vast shaft of masonry towers five hundred and sixty feet in air. Many of us climbed to the top. We also stopped at the Lincoln Memorial. This memorial is all white marble. It contains a statue of Lincoln which weighs many tons.

Our trains left for Philadelphia at 6:30 P. M. We arrived at Ogontz about midnight.

Thursday, we spent at the Exposition grounds. The buildings most interesting here were: The Indian buildings, fashioned after the Taj Mahal; Sulgrave Manor, an imitation of Washington's ancestral home in England; (In this building is carved furniture dating back to 1500 and 1616); the Russian Pavilion and the Noremburg Market Platz; (both of these places are unique restaurants) the Moorish exhibit of Arabian horses; and the Japanese Bazaar, a quaint shop. Another feature of interest is the Street of 1776. On this street are the houses, the same as on High Street in 1776.

We had dinner on Treasure Island, a pleasure resort for children. Here we were overjoyed to meet a Maine man, namely, Dr. Augustus O. Thomas.

Thursday evening we spent on Gladway, the pleasure center of the Sesqui. We spent two exciting hours on the Cyclone Coaster, Caterpillar, Bucking Autos Foot Ball and similar contrivances.

Nothing was lacking in this wonderful trip, given by the Sesqui Association. Friday we were transported Via the Reading R. R. to the Playground of the Nation, Atlantic City. Such sport as we had, bathing in the surf, shopping along the boardwalks, dancing on Steel Pier (which extends 1726 feet into the Atlantic) and finishing the day on Steeplechase Pier where we tried everything from the kiddies' slide to the huge ferris wheel.

Saturday, a very sleepy, tired crowd of youths and teachers, toured historic Philadelphia. We saw Betsy Ross' house, the grave of Benjamin Franklin and the William Penn house. Independence Hall impressed even the sleepiest person. Each of us reverently touched the sacred Liberty Bell, and all felt a sense of awe when in that room where the famous document the Declaration of Independence was signed.

After lunch at the Sesqui grounds, we went to the Navy Yards. It was great fun to inspect the sub-marines, destroyers, and battle ships. The Olimpia, Dewey's flagship, was in the yard. The sailors were very kind in explaining everything on board this ship. On the deck, outlined with nails are Dewey's footprints, as he stood and directed the battle of Manila. How we tried to make our feet fit these footprints!

Saturday evening, we viewed the magnificent pageant, Freedom. This pageant was the largest ever staged in the world. Seats were reserved for us in the huge stadium which seats one hundred thousand people. The pageant portrayed the advance of freedom from the pre-historic age to the present era. The evening was not quite complete for a heavy shower rendered it impossible for the cast to present the entire performance.

Sunday forenoon, we had a choice of attending any church in Philadelphia or going to the Zoological Garden. In the afternoon, we all journeyed to Valley Forge. Here in the vast Washington Cathedral, special services were held for us. No service will be more impressive —no Fourths of July will be so fitting as that one at Valley Forge—the place where Washington and his army suffered that the Nation might be saved. After the services, we toured the Forge, seeing the house where Washington had his headquarters during that fearful winter.

The event that stood out most in Monday's program was President Coolidge's speech in the stadium. Although it rained, over five thousand persons were there to hear the Chief Executive. His speech warned us against radicalism. He said that nothing was ever accomplished in haste. Our transitions must be gradual and natural.

After the speech, we returned to Ogontz. A special banquet was prepared for this, our last night together. All the recipients and directors of the Award were present. After the supper, we had a dance in the log cabin. At midnight, taps sounded ending our last day as the guests of the Sesqui-Centennial Exposition Association.

Lesson for August 8

THE GIVING OF MANNA

LESSON TEXT—Exodus 16:1-36.

GOLDEN TEXT—Jesus said unto them, "I am the bread of life."

PRIMARY TOPIC—God's Gift of Daily Bread.

JUNIOR TOPIC—God Sends Food in the Wilderness.

INTERMEDIATE AND SENIOR TOPIC—Our Daily Blessings.

YOUNG PEOPLE AND ADULT TOPIC—God's Good Gifts.

I. Lusting for the Fleshpots of Egypt (vv. 1-12).

1. Murmuring against Moses and Aaron (vv. 1-3).

As they journeyed from Elim into the great wilderness, they became conscious of the scarcity of some of the things they had enjoyed even in Egyptian slavery. Only a few days before they were singing God's praises for their wondrous deliverance at the Red Sea (Ex. 15). Their complaint not only displayed ingratitude but a deep-seated impiety. It was against God that they were murmuring, for He had led them into the wilderness. His object in so doing was to teach them to walk by faith instead of sight. They went so far as to express the wish that they had died in Egypt with full stomachs rather than to be walking in the wilderness by faith.

2. God's answer to their murmurings (vv. 4-12).

(1) He promised to rain bread from heaven (vv. 4, 5).

His purpose in this was to teach them that man liveth not by bread alone, but by every word that proceeded out of the mouth of the Lord (Deut. 8:3).

(2) He promised to give them a vision of His glory (vv. 6-10).

This served as a warning and encouragement. Moses and Aaron told the children of Israel that the glory of the Lord should be seen in the morning as a reminder that their murmuring was against the Lord and not against themselves.

(3) He promised them flesh and bread (vv. 11, 12).

"At even ye shall eat flesh and in the morning ye shall be filled with bread."

II. Quails and Manna Given (vv. 13-15).

At the appointed time God gave the Israelites the promised food. He first allowed them to feel their need to show them that man's highest need is not physical food, but living faith and fellowship with God.

1. In the evening the quails came up (v. 13).

Since they desired flesh, He gave them flesh to eat. God frequently caters to the desires of His people, knowing that the best way to teach them is to allow them to be filled with their own folly.

2. In the morning God gave the manna (vv. 14, 15).

The Israelites did not know what it was. They therefore exclaimed, What is it? Moses told them that it was the bread which the Lord had given them to eat.

III. The Responsibilities of the Israelites (vv. 16-31).

1. They must gather a certain rate daily (v. 16).

The purpose of this was to test their faith. They must look to Him for their daily bread (Matt. 6:11).

2. Every man must gather for himself (v. 16).

This teaches us the important lesson that every man must appropriate Christ for himself.

3. They must not gather in excess of one day's supply (vv. 18-20).

That which was in excess of a day's supply became corrupt. The Christian must use what gifts the Father bestows upon him. Christian grace and Bible truth must not be hoarded up—they are good only when put to use.

4. The manna must be gathered fresh every morning (v. 21).

This was to be done early before the sun was up. So must we seek Christ, who is our manna, every day and the first thing in the day (John 6:57).

5. The manna must be eaten to preserve life.

They were in a wilderness, so could live only by the eating of the food which God gave. It is so with Christ (John 6:53).

6. Due consideration should be given to the Sabbath day (vv. 22-31).

A double portion was to be gathered the day before so as to keep inviolate the Sabbath day.

IV. Manna Kept as a Memorial (vv. 32-36).

This was to be kept as a reminder of God's favor in feeding them in the wilderness, even for supplying them with bread for forty years until they reached the promised land.

To Give All

The love of the base spirit is the desire to take all it can. The love of the nobler spirit is the desire to give all it can.

Infection of Excellence

If one life shines the next life to it must catch the light. It is the infection of excellence.

Best Preparation

Doing good in this life is the best preparation for the life to come.

MOTOR CAMPING WITH A FLORIDA BACK GROUND

By Edgar O. Spaulding Himself

(Continued from last week)

Macon is a very modern city of some 6500, located in the heart of the peach belt. There are 20,000,000 having peach trees within fifty miles. Here also is Wesliyan College, the oldest chartered college for women in the world. The streets are wide and well paved with many beautiful homes and the stores had an up to date appearance that had been lacking through much of the South. We were asked here many times about the letters on our number plates.

The weather being perfect, we visit the fair finding much the same as fairs everywhere, but with many vegetables and growing things, that were unfamiliar.

Here also we had our first taste of the real estate salesman, he telling us that we could make as much from Ga. real estate as we could from Florida. Am inclined to believe him now.

Being afraid of rain, we move after two days bidding good bye to the rest of the party as they were going to Lake City. Crouse, we were not to see again. Jenkens, we had found out, had gone on ahead and was O. K.

Had intended making the next stop at Fitzgerald, a city of 7500, founded in 1895 by a colony of federal soldiers under the leadership of P. H. Fitzgerald of Indianapolis, but on arrival, it looked more like rain than ever, so we keep on to Waycross; which we reach at just dark, having made 85 miles after three o'clock, over fairly good roads. Pigs and cows are allowed to run loose in this part of the country an several times I just missed a pig or cow. Occasionally we came to a dead one by the roadside, mute evidence that somebody could not stop quick enough. Presume that the people owning them must think like the Chinaman: "Plenty more."

Waycross is a city of some twenty thousand, largely maintained by the shops of the Atlantic Coast Line railway. The long Main street has stores on one side only, while the railroad is on the other side, giving the place a somewhat peculiar appearance. The camp ground is a half a block from the Main street, back of the court house and is neither very good or very bad.

This being Saturday, and the road ahead being reported as good, and being somewhat tired we stay over Sunday. This was a mistake as it rained Saturday night and Sunday night, a result of which was to give us on Monday, the worst drive of the trip.

The traffic over the road to Jacksonville had been so heavy, that the gravel was completely worn off, leaving holes from three inches to a foot deep, and each one filled with mud and water. This caused me a half a day of the hardest kind of work later, as the car was completely covered with it. Nothing except tar can stick to an automobile equal to the red mud of a Georgia road.

The country was now all flat not having been any hills for some time. Coming to the St. Mary's River, we cross the toll bridge and are in Florida. Wonderful land! Land of Spanish Moss and sand, development, and sub-divisions, Alligators and Lakes, home of the Orange and the Grapefruit, Big Motor Bus and the Free Dinner, Twenty-five foot building lots and Nine-foot brick Roads; Florida at last, and it rained.

We were now on a wide macadam road and thought our troubles were over, but there was yet another detour (how I hate that word) that made anything before look tame by comparison. All things have an end however, and we finally arrive at Phoenix Park Camp at Jacksonville, where we pitch our tent and prepare to wait for our mail.

It rained.

Next day it rained.

And the next day it rained.

And so on for the ten days we staid except for a little while one morning. Talking with a man at the Post office, who said he had been in Jacksonville some thirty years, I asked him if they had this cloudy, rainy weather all winter.

"Yes," he says, "It does rain quite a lot in the winter but, he added, it's a dry rain, you don't mind it much."

Jacksonville is a city of 125 thousand located on the St. John's River and is the commercial center of Florida. It has many big banks and financial institutions. Real estate offices are everywhere. The streets are crowded with traffic, giving one the impression that it is much larger than it really is.

Big motor busses are there in countless numbers to take prospectors around to the different real estate developments. All is free if you are willing to listen to an hour or two of sales talk. You could go on a free ride everyday for a month if you so wished. Many of these bus rides include a free dinner and they beg you to go, even when you assure them you are not interested.

On the street corner, the talk is of real estate. Ninety-five per cent of the advertisements in the newspapers (price five cents) are real estate. Real estate is in the air and every where present. And no matter how bare the sand or how little work has been done on that particular developement, all is beautiful. All Florida and everything down here is beautiful to the real estate man. Beautiful lakes, beautiful land, beautiful homes, beautiful streets, even when all you can see is a bunch of surveyors' stakes and a little lake with some grass in it. Yes, all is beautiful and a wonderful word is "beautiful."

Many fine parks in Jacksonville, located here and there throughout the city. Flowers were in bloom and aside from the clouds and rain, it looked more like June than November to us. Quite cool nights however.

Pheonix Park Camp is a big place in an oak grove on the edge of the city. At the time we were there over 600 outfits were on the grounds with an estimated population of over two thousand souls. The rate is one dollar per week. A poor man's paradise. There is a big community building with free entertainment nearly every night and church service on Sunday nights.

Neese and Wood came in from Lake City the third day. They seemed like old friends.

Now that our party was together again we had our own camp fire each night and even if there was clouds and rain, it was not such a bad life after all. The best fuel in the world for the camp fire is an old automobile tire. They burn with a bright hot blaze, that lasts well and can be lighted with a single newspaper. We used to spend our spare time, hunting for them and had from 3 to 5 tires each night.

After ten days of Phoenix Park the three outfits of us move to St. Augustine. Nine foot brick road nearly all the way. Had not gone more than twenty miles before the sun was shining and it looked like a different world.

All along this road, land is being cleared for this or that development. Big signs tell us that we are sure to be rich if we will but buy lots in some "Heights" or some "Shores" or some "Gables." And all is beautiful—the signs say so.

At St. Augustine we stopped at Dillon's Camp. A small privately owned place, good and clean.

St. Augustine as everyone knows is the oldest city in the United States and is very fascinating with its old fort, its old buildings and narrow streets. Treasury street is only six feet and two inches wide at one end. The Post Office is in the Governor's Mansion which, if I remember correctly, was built in 1630.

We visit the old "City Gates" and old Fort Marion with its dungeons, its bastrons, watch towers and moat. Built of coquina (a shell rock of natural formation) it looks as if it might stand forever. Would that I could describe this for you.

Neese and I spend much time fishing. We fish from the bridge, also from the island where sand is being pumped from the harbor to form "Davis Shores." Had not been fishing before in twenty years, but enjoyed every minute of these trips. The light blue of the sky, the dark blue of the water, together with the bright sun overhead, was wonderfully fascinating. Away out on the outer beach were thousands upon thousands of birds, the kind I know not.

Would have been willing to make a longer stay in old St. Augustine, but the camp ground was too small and too crowded, besides we were obliged to keep our cat tied up by the rules of the camp. This Ethel, did not approve of.

Wood left first and we have not seen him since. Neese and I spend one night at New Smyrna, but not liking it, come back to Daytona Beach. No satisfactory camp ground being available in that place, we move on to DeLand.

Fifty years ago, Henry A. DeLand of Fairport, N. Y. who had been a world traveler, built a home in this section with the idea of building a model town this part of the state being a wilderness at the time. In carrying out this idea, he enlisted the aid of a personal friend, John B. Stetson of Philadelphia, the history of the city and its university, being closely associated with these two men. DeLand is 110 miles south of Jacksonville, 19 miles from the Atlantic Ocean and 3 1-2 miles from the St. John's River. It is in the heart of the orange belt, with a population of about 8000 in summer and double that in winter.

"DeLand's model Tourist Auto Camp (I quote from the guide book) "a high rolling park of ten acres, densely shaded by towering pines, is located, but three blocks from the city's business center, has hundreds of camp sites, four recreation grounds, a large central pavilion with fireplaces in the center of the park for recreational, civic and religious gatherings, men's and women's rest rooms, shower baths, running water, electric lights, a custodian constantly in charge and police protection." All this costs $1.50 per week.

Had intended to spend the winter in St. Petersburg, but on my first trip down town was offered a situation by the Reeve Studio, which, as we liked the town, I accepted. Neese staid until Thanksgiving, now being located at Lake Land.

As we are now settled for the winter let's see what kind of people these campers are. There are some 175 outfits in this camp, from twenty-five different states. Camp is divided into four sections, A, B, C, D, we are in Sec. B. Speaking of my neighbors. On my left in the next tent an automobile salesman from Michigan down here for his health, and to buy a little real estate to sell at a profit. Next to him a Methodist minister from Massachusetts on a vacation. Back of me a barber from Buffalo, down here for health and to buy a little real estate etc., etc. Across the street near the fence, a hotel man from Vermont and the owner of a sub-division. Right by him a sheet metal worker from Northeast, Pa. Next by is a carpenter from Michigan and road builder from Texas. Directly back of me, but on the other street is an outfit from Auburn, N. Y. owner of four lots of real estate to sell etc., etc., while next to him is a Vermonter who is a member of the DeLand police force. Does this sound as if tin canners were bums?

Our living expenses run about $15.00 per week for the three of us, plus the cat and the camp ground rent. On the road from $5 to $6 per day. Board and room here in a third rate hotel costs $20 per week, which may explain to some extent the popularity of the tourist camp ground.

The weather so far this winter has not been up to the advertisements, there being much rain and cold with a few good days in between. On four mornings ice has formed in our water pail beside the door. Many campers do without heat, but a stove of some kind is a great help. To be absolutely fair, will state that for the last ten days the sun has shone, (This is written early in Feb.) everyday and the weather could be described as perfect.

I cannot agree with those who write up North saying there is no boom here. If there is no boom in real estate, they are certainly using boom methods of salesmanship, with free Ford cars, free phonographs, free dinners, free rides, male quartets, bands and dance orchestras. In this small city there are sixty real estate offices. Would you say there was no boom? A conservative estimate places the number of building lots for sale in Florida at 61,000,000. Do you think that half of the whole United States is going to move down here? Would you call that good solid substantial development? In a new development, twelve miles from DeLand, the nearest town, lots are selling at $2100.00 for the cheapest and there has actually been many sales. If lots 50x145 feet were selling at Mortons Corners, say at $2100.00 per, would you or wouldn't you say that there was a boom? Still what amounts to just that is going on right here.

No one should buy any land down here with out coming to see it first. I can show you a place where small farms of five and ten acres are being sold and developed, more than half of this land is from two to three feet under water right now. The other day we drove by these and saw four negroes fishing in one of the surveyed streets.

There are good developments as well as bad, and I can name some which I think are good but the times when you could buy a lot, keep it three months and double your money are gone forever.

Florida will grow and prosper I firmly believe, though possibly not at the speed of the past two years. Real estate must find its proper level and fingers are going to be burnt in the process. This state holds wonderful possibilities in agriculture and dairying to the farmer who is willing to make his home here. Tourists however will probably always be the main crop.

And now as you sit by your warm fire reading this, picture in your mind a warm sunny day with a clear blue sky, birds singing among the trees, while the palms and water oaks wave gently to and fro in the slight breeze. Picture me in a chair beside a tent writing, while Ethel is working over the gasoline stove, getting dinner. Florence is at the tent next door, while the cat is sleeping peacefully on the bed. It is late afternoon for most campers have their hearty meal at night. A roast of pork is in the camp oven, while potatoes are baking in the gravy along side. On the table is corn bread and pie, baked in that same oven while in a bowl is apple sauce, fresh from the can. The coffee is beginning to boil, its fragrance is everywhere. Dinner is nearly ready. The campfire in front is ready for the match as soon as it is dark. Picture this scene if you can, picture the dinner eaten out of doors where you have the appetite of a ten-year old. Picture all this, my friends, for this is one of the joys of the great out-door sport of Motor Camping.

These Custom Sedans combine the lines that appeal to a woman with the stamina that appeals to a man—add custom refinements to the ruggedness of Studebaker performance—offer disc wheels and four-wheel brakes—reaffirm the inflexible standards of Studebaker quality—and invoke anew the great Studebaker tradition of *making good with the public by continually making better in the plant!*

They are the latest examples of the Studebaker policy of progressive betterments. To the smoothness and power of the quiet Studebaker L-Head motor is added the custom symmetry of line and treatment that would be absolutely impossible, at the Studebaker price, without Studebaker One-Profit facilities.

These Studebaker Custom Sedans are now on view at our display rooms. You are invited to come in and see them.

Fryeburg Harbor, North Fryeburg, Stow

The attendance of adults at the Harbor Sunday school last Sunday was excellent. There was but a small attendance of children, due in part to the epidemic of whooping cough in this community. The Sunday school is at 9:30 next Sunday and don't be afraid of the whooping cough, as no children who have it will be present.

Services will be held on Sunday, August 8, at the Harbor Methodist Church at 10:30, (Epworth League meeting at 7.30) and at the North Fryeburg Universalist Chapel at 7.30.

This will be summer visitors' Sunday and a very cordial invitation is extended to all to attend either the morning or evening service. The pastor, Rev. W. A. Smith, will preach on the "Divine Springs."

On Sunday, August 8, will begin a Better Church Campaign at the Harbor Church. The week beginning August 8 is Prayer and Consecration Week. The Thursday night meetings for the rest of this month will be devoted to this campaign.

Residents, adults and children, summer visitors and campers in Stow, Chatham Center, North Chatham and vicinity are invited to gather at Stow Town Hall on Monday evening, August 9, for a Community Sing and Social and a timely address by Rev. W. A. Smith.

Meetings for children in Stow and No. Fryeburg during August will be held as announced, and parents are asked to do their best to have their children attend these meetings.

You pay once only for any Concrete Farm Improvement

Farm Storage Cellar Will Pay for Itself

Have you ever had the experience of trying to sell apples, potatoes and other crops when everyone else was trying to do the same thing?

Markets glutted at harvest time often knock the profits out of a season's efforts.

Why not arrange to store some of your crops so they can be marketed in accordance with demand?

Here's where the concrete storage cellar comes in. Many a farmer who has one can tell you that its total cost was returned to him the first year by being able to take advantage of marketing conditions when they were most favorable.

You can easily build a storage cellar or other concrete improvements on your farm by following a few simple directions. Let us send you a free copy of our booklet "Plans for Concrete Farm Buildings." Write for it today.

Miss Ethel Ford, of Yarmouth, was the week-end guest of Mrs. Emily J. Felt. For the past year, Miss Ford has been in the "Berry School" at Mount Berry, Ga. These schools were started twenty-five years ago by Miss Martha Berry, who saw the great need of education among the white people of the Mountain. From the very small beginning of a one-room school taught by Miss Berry, has grown the present plant of 7,000 acres, 1,000 of which are under cultivation, 1000 building, 700 students, 75 teachers. There are three distinct schools, each with its campus and well equipped buildings, a Boys' High, a Boys' Grammar, and a Girls' High and Grammar combined. The school is supported by gifts, it is interdenominational. Bible study and religious instruction are a part of the regular school work. Everything needful to fit a boy or girl for a useful life is taught in these schools. It has been said of Miss Berry, that she is doing more good for the country through these schools, than any other one individual.

OXFORD COUNTY UNITED PARISH

Vacation School—Lawn Party at North Waterford—Services at Lake Keewaydin, Waterford and Albany, Sunday.

The church vacation school finishes this week its sessions for the summer. The children of the upper end of the parish have been coming out in large numbers and have been having such a good time that they are sorry to think the end of the school is so near. "I wish there were a school every week" is the way one girl expressed her feelings. One of the happy features is the morning lunch. Milk, graham crackers and sandwiches have been generously supplied by friends of the school. These gifts have been much appreciated. We are very grateful for the hearty support and encouragement given by many. Tuesday night was marked by a very happy occasion. The North Waterford Circle gave a lawn party on the church green. The tables were set out of doors and those present enjoyed a delicious supper "to the full." After an exciting game of Dodge Ball enjoyed by players and spectators, a short program was given. The program was followed by several relay races, which ended the evening with keen competition. The people had a good time and thanks is due all those on the various committees and others who contributed to its success.

We want to say a word about church services. Last Sunday morning the church at East Stoneham worshipped in the open air. The service was so much enjoyed by those present that they have invited the North Waterford church to meet with them at 9:30 a. m., next Sunday, on the shores of Lake Keewaydin. The service will be held as usual at South Waterford for the Federated Church, at 9:30 a. m. These two services will be over in season for all who wish to ride to Albany where Henry F. Merrill of Portland will be with his Sunday school class to assist in the service. Come and enjoy this happy service with the Albany folks.

We hope Mr. Merrill and his class may be with us at some of the later services of the day. Especally do we hoipe he may be with us in the evening for the open air vesper service to be held on the North Waterford church green at 6:30, Sunday. This is one of our first real open air services for the whole parish and we hope it will be very largely attended.

Rev. B. F. Wentworth, the new member of the staff, is also expected to be with us next Sunday. It will be a big day, anyway, and let us make it more so by everyone being present at the services.

The Albany people are inviting the friends who come to the services Sunday morning to bring their lunch with them and have a picnic dinner on the hill.
